— 2022 Awareness Walk —

Sample Fundraising Email

Raising awareness and funds involves reaching out to your network of friends, family members, and colleagues to educate them on cardiomyopathy and the need for more family support programs. In addition to posting on social media, you can start an email campaign with your story and lead them to your fundraising page. When the cause and goal is personal, it inspires others to get involved and contribute.

Dear NAME,

September is Children’s Cardiomyopathy Awareness Month, and I’m excited to Walk for Cure with the Children’s Cardiomyopathy Foundation (CCF). I’m joining other walkers from across the country to further CCF’s work and improve the lives of children with cardiomyopathy and their families. I know that my participation on this awareness walk makes a real difference to those affected by this chronic and potentially life-threatening heart condition.

This awareness walk has real meaning to me because GIVE REASON (example: cardiomyopathy affects my family or I am walking for my son/daughter/niece/nephew). When a parent discovers that their child has an incurable disease like cardiomyopathy, it is a confusing and anxious time. CCF provides information, guidance, and emotional support to help families cope with their child’s unexpected diagnosis.

I am asking for your contribution as I walk to raise funds for CCF’s family support services. You can donate directly to my/my team’s fundraising page at LINK TO FUNDRAISING PAGE. Or register to join me/my team to walk on DATE.

With gratitude,
