

MONDAY · JULY 24 · 2023

RIDGEWOOD COUNTRY CLUB

96 WEST MIDLAND AVENUE, PARAMUS, NEW JERSEY

A Cause for Today...
A Cure for Tomorrow

July 24, 2023

Dear Friends,

Welcome to the Children's Cardiomyopathy Foundation's 20th Annual Golf for a Cure! We are thrilled to welcome you to Ridgewood Country Club today and hope you enjoy the event.

Since 2002, the **Children's Cardiomyopathy Foundation (CCF)** has worked to increase research, education, awareness, advocacy, and family support for pediatric cardiomyopathy, a rare and chronic heart disease. Your support today helps us to advance our efforts to improve outcomes and quality of life for affected children, including:

- Supporting the National Institutes of Health-funded Pediatric Cardiomyopathy Registry to fund multi-center studies and disseminate research findings
- Increasing awareness of pediatric cardiomyopathy, especially during National Heart Month in February and Children's Cardiomyopathy Awareness Month in September through social media campaigns and CCF community events, Bake for a Cure and Walk for a Cure
- Collaborating with organizations such as American Heart Association, Genetic Cardiomyopathy Awareness Consortium, Global Heart Hub, and WebMD to elevate awareness of cardiomyopathy signs, symptoms, and treatment in children
- Providing support services to patients and families, including ambassadors, an online member community, family matching, webinars, educational resources, and specialty center listings

Your generosity allows us to continue our work to reach more families and support more research to identify improved treatments and ultimately, a cure. Thank you for being a partner in hope.

With gratitude,

A handwritten signature in black ink that reads "Gina Peattie".

Gina Peattie, MPA
Executive Director

ACKNOWLEDGEMENTS

This event is made possible through the generous support of our sponsors, in-kind donors, and event supporters.

ABOUT THE FOUNDATION

The Children's Cardiomyopathy Foundation (CCF) is a national nonprofit dedicated to finding causes and cures for pediatric cardiomyopathy, a chronic and potentially life-threatening heart disease.

Established in 2002, CCF's goal was to accelerate the search for cures and address the unmet needs of patients. CCF's commitment to fostering research collaborations and facilitating dialogue among physicians, medical societies, and federal agencies has led to advances in how patients are managed and supported. More than 445 medical publications and presentations on pediatric cardiomyopathy have resulted from CCF-funded studies and scientific conferences.

Twenty-one years later, CCF is a global community of families, physicians, and supporters working together to improve outcomes and quality of life for children with cardiomyopathy. CCF continues to strengthen its partnerships with the scientific community and industry while ensuring that the patient perspective is always at the forefront.
